Thomas, Dominion Secretary, en route for Captain Latta, her commander, looking on is Geoffrey Lloyd, M.P., a brilliant younger member of the house, who is the Parliamentary Private Secretary. 1928 El Ouali, an Algerian, by birth, then a mechanic in Paris won the marathon at Amsterdam, while Lord Burghly, of the Imperial House of Lords and Bonhomme, won the 400 metre hurdles and Percy Williams won for Canada the 100 and 200 metre events.

Canada will again have a strong representation. Where the prizes will go none dare venture to foretell. But all will be interested and once more petty local affairs will be lost in the larger world outlook.

For the next couple of weeks Los Angeles will be the hub of the world. Next Saturday the Olympic games open in which no less than forty nations will compete. Those interested will find splendid articles in the July issues of the "Country Gentleman" and the "Western Home Monthly".

We are not surprised that de Coubertin received the Nobel Peace Prize for reviving the games and giving them an international character. And it seems only the irony of fate that the 1924 games held in Paris should have been the one where athletes went so far as to attack each other. But the whole the move has been one of vast importance in bringing together the nations and creating something that sense of brotherhood so sorely needed. In 1920 at Antwerp the Fins won five events. In 1924 Eric Liddell a Divinity student of Glasgow, born in China, won the 400 metre, in

Here and There

The Nova Scotia Dairymen's Association will hold their next annual convention in 1933 at the Cornwallis Inn, Kentville, N.S.

Shipments of celery to Canada this year from Bermuda totalled 25,000 crates in contrast to last year when the shipments were virtually negligible.

Eastern Steamship Lines, Inc., had heavy traffic on an excursion from Toronto to Nova Scotia on the occasion of the first trip in June of the R.S. Acadia from New York to Yarmouth, N.S.

Railroad transportation is an essential economic function on this continent and given reasonably free rein should speedily show good recovery using it to increase buying of materials and employment of labor, says the Greenview (C.C.) News editorially.

Total production of honey in Canada in 1931 amounted to 27,873,757 lbs. valued at \$208,094. Ontario led the Dominion with a production of 12,000,000 lbs. with Manitoba second with 7,447,775 lbs., and Quebec third with 5,632,490 lbs.

Ten thousand rainbow trout fingerlings have been deposited in the French River in June, following 7,500 fingerlings deposited last year. The previous experiment was so satisfactory that the present action has been taken and if success still attends these efforts, the French River Bungalow Camp will have added rainbow trout to its already well diversified angling attractions.

Bob Davis, globe-trotting New York Sun columnist, is back in the beloved British Columbia, having recently arrived from his tour around the Empire of Canada, of the Canadian Pacific fleet. He proposes to spend some time in fishing expeditions both in the province and also in the Rockies where he will meet Irvin S. Cobb and Seymour Chalky Cooper, also famous American publicists.

Tourists spent almost one million dollars for every working day in Canada last year, a sum virtually equal to \$250,000,000, the Cammington, Ontario, Gleaser, points out and claims that this puts it into the class of big business which should be carefully fostered. Commenting on the same subject, the Nelson, B.C. News states that there are numbers of small towns throughout Canada which have not yet realized what the tourist business could do for them.

Evidence of the growing popularity of the Canadian Pacific Railway low rate bargain return trips, inaugurated this year, was again furnished by the success of the Quebec Province and Montreal excursion to Toronto and Niagara Falls, June 17, when no less than 2,200 Quebecers took the trip in four specials on the Friday, returning the following Sunday night. His Honor the Mayor of Toronto issued a hearty welcome to those making the trip.

The thirty-two business and professional men and women from the British Isles now touring British Columbia under provincial government auspices found Victoria much to their liking and quite up to advance notices of before the month "English" city on this side of the Atlantic. They were particularly impressed by the beauty of the formal gardens at some of the homes they inspected and especially with the famous Butchart Gardens. They are travelling by Canadian Pacific Railway. (152)

The Last Turn

Everyone for the past year or more have been looking for those good times that were just around the corner. To us it begins to look as though we are about to reach around the last corner. Things are on the mend, and it begins to look as though we are over the hump.

You remember the story about the old darkey with the balky mule whom a friend came along the road. When the friend was aware of the darkey's predicament he at once proceeded to give the mule an injection that immediately brought the mule out of his balkiness and started down the road at a speed seven times faster than he had ever travelled before. When the darkey came to after his amusements, he excitedly inquired of his friend what it was that he had put so much pep into the old mule and that he wanted a double dose himself as he done had to catch that mule. Those of

you who are going to need harvesting repairs and as yet haven't placed your order for them, may find yourself just about as far behind the harvest as the darkey was behind the mule. You may catch up to it all right, but it will take some time.

We have added a new reputable line to our wares. This line carries to it all right and from home at prices and terms to meet your approval and the times. Watch next week's "Wagin' Tung" for more particulars, or call in and visit us.
